

2024 YEAR IN REVIEW

WHAT A *difference* A YEAR MAKES

Have you heard Baby Adam's amazing story? [CLICK HERE](#) to watch and share with a friend!

Pregnancy Assistance Center North

Together we make a *difference*

I cannot express my gratitude enough for your continued faithful support. **Because of you, PACN was able to care for clients over 4,300* times in one year!** That's over 4,300 opportunities to share the love of

Jesus by meeting their concerns and needs wherever they are in whatever circumstance they are experiencing.

Since the launch of our Medical Plus Program in July of 2023, **we have seen an increased trust from abortion-minded women** as they recognize how much our team cares specifically for them and their health.

- 46% are willing to return for multiple visits giving us multiple touchpoints of care, compassion, and prayer.
- The more visits and longer the woman takes to make her decision, the more likely she will choose life.
- 134* abortion-vulnerable women chose life for their babies.
- 87* of them participated in our Medical Plus services!

We truly are FILLING THE GAPS in healthcare created by the abortion industry.

*October 2023 through September 2024

Recently on two separate occasions, women who were originally abortion-determined changed their minds and chose to parent but unfortunately found themselves in the ER with miscarriage symptoms. While they were in the ER, they contacted OUR medical team because no one was communicating with them, and they trusted us enough to seek more help in the moment. Wow! **Where else will God be calling us to FILL THE GAPS?!**

We still have A LOT of work to do. With the accessibility of the abortion pill online, the trends saying it's "safer to take than Tylenol", and the current economic and political environment, your help is needed now more than ever. With your support, together we can make a difference in our community in a lasting way by providing medical care, education, and truth to everyone who walks through our doors.

Because of you we are advancing the culture for life.

Please join us by [making your gift online](#) or by sending a check in the enclosed envelope.

"...From the lips of children and infants you, Lord, have called forth your praise." Matthew 21:16

“You helped me come back from a decision I regretted in the moment to now being the best decision I ever made.”

~PACN Client

“Pregnancy is a scary thing but PACN has the kindest people I’ve met. They will support you without judgement. I’m saying this from experience.”

~PACN Client

YOU + PACN = SAVED LIVES

Stacie and Ryan, married ten years with two children, found out they were pregnant again. This time, it wasn't happy news, as Stacie had recently received a concerning diagnosis, and both she and Ryan were fearful for her health. Overwhelmed with anxiety, they quickly flew to New York and obtained a pill abortion.

However, after Stacie had taken just the first pill, the couple immediately regretted their decision. Searching the internet for a way to save their pregnancy, they found the Abortion Pill Rescue Network, who referred them to PACN.

The couple spoke by phone with Shannon, PACN's Nurse Practitioner. "We are still in New York and won't be back in Houston until tomorrow. Can you help us?" Ryan asked urgently. Shannon replied, "Yes, we can work together to get a local pharmacy to coordinate getting a prescription transferred to one near where you are staying." Shannon, concerned because of how difficult it can be to get a progesterone prescription pushed through even on a local basis, got on her knees praying, "God, this tiny baby is only seven weeks in utero, and the client needs this medication today! There is nothing I can do to help her if YOU don't take over." She called the local pharmacy and was immediately connected with a pharmacist; within thirty minutes the two pharmacies had coordinated filling Stacie's prescription, and she had already taken her first

dose! Smoothest prescription pick-up...ever. Thank you, Jesus!

The next day Ryan and Stacie landed in Houston and came directly to PACN to receive an ultrasound. Ryan and Stacie were emotional; it was easy to see the guilt and shame on their faces. Shannon reassured them saying, "There's no judgement here. Many of us that work here have our own story. We're glad you're here."

The ultrasound confirmed the viability of the seven-week pregnancy. Shannon advised them that their very young pregnancy would require return visits to PACN for continued monitoring of the baby. They did return two more times; and each time they found that the pregnancy was progressing normally. Because of this, Stacie was transferred to an OB/GYN for the duration of her pregnancy!

We **rejoice** with them at the birth of their healthy, baby boy in September! We **rejoice** at being able to participate in the beautiful rescue of a unique life that God was fashioning in his mother's womb. **We rejoice with thankfulness that you have come alongside us to ensure that this amazing work continues, helping to save a generation!**

The **Heart** of the Donor

The abortion clinic's purpose is death. It is bleak, somber and you will feel an immediate level of discomfort upon entering. Relationships with clinic staff are not created as they are predicated on fatality and lies. Your decisions are never a celebration as you unsuccessfully try to forever remove the experience from memory.

~ B. Bleibdrey

PACN's purpose is life. It is comforting, honorable and you will feel immediate relief. The staff are real-world guardian angels, forming bonds deeper than any you have ever had. God's spirit is present, encouraging you along the way. Your decisions are worthy of celebration and you will be rewarded with a lifetime of love.

I have experienced both, which is why I choose to help PACN.
