

THE *ONE*

ONE WOMAN. ONE STORY.
ONE MOMENT THAT CAN CHANGE EVERYTHING.

PACN

2026 Year-End Impact Report

LETTER FROM JENNIFER

She Wasn't Alone

Because of you, 4,471* individuals walked through PACN's doors this year—mothers and, in many cases, the fathers of their babies. Behind those numbers are real people. And at the heart of nearly every story is a woman who is shaken, scared, and unsure what she'll find on the other side.

Because of you, she wasn't alone when she walked in.

> *In Luke 15, Jesus tells of a shepherd who leaves the ninety-nine safe in the fold to go after the one who wandered off.*

At PACN, we are reminded of that "one" every day. She is worth going after.

We are honored that the Lord entrusts His "one" to us—and that He has entrusted you with a part in reaching her.

In Texas, the abortion pill continues to arrive by mail in unmarked packages, without the medical oversight or support a woman needs. Even when the pills are already in her hands, she may still be unsure, afraid, and looking for a place to turn.

We want to be there for her in that moment.

PACN's Medical Plus testing and First-Trimester Prenatal Care can give her something she needs most: **time.**
Time to breathe.
Time to see her baby.
Time to find clarity in the middle of the storm.

Right now, there is another "one" out there. She may be deciding this very week. She may even be someone you know.

Your gift helps make sure PACN is ready for her. With medical care, education, material assistance, and the hope of the Gospel—all at no cost to her—you help make it possible for us to be there when she needs us most.

Would you prayerfully consider a year-end gift, so that when the next "one" walks in, we're ready—and she knows she is not alone?

Give online, scan the code, or mail a check in the enclosed envelope **by December 31**.

With deep gratitude for your faithfulness,

Jennifer Perregrino, Executive Director

She Was The *One*

ONE WOMEN. ONE STORY. TWO LIVES CHANGED.

In the spring of 2023, Evaleni walked through PACN's doors excited to confirm what she already believed: she was pregnant. She received a positive test, health counseling, prayer, and joyful encouragement. Over the next two years, PACN became a place she trusted, and she built a close relationship with her Client Care Manager, Rosalva.

Then, in May 2025, Evaleni walked through the doors again—this time in tears.

Two home pregnancy tests had come back positive. Her daughter was only 18 months old, immigration concerns weighed heavily on her family, and she was afraid they could not afford another baby.

Through tears, she told Rosalva, **"I want to have an abortion."**

Rosalva met her with compassion and encouraged her not to make a decision alone. Two weeks later, Evaleni returned to PACN. Her pregnancy was confirmed, and she shared her fears with a spiritual mentor. Together, they prayed and talked about the fear consuming her.

Then Evaleni saw her baby.

As she watched her baby on the ultrasound screen and heard the heartbeat, tears filled her eyes. She left still afraid, but with a growing assurance that she was not alone.

A week later, she returned for another ultrasound.
"I have decided to have this baby."

The fears did not disappear overnight. Evaleni continued coming to PACN for encouragement, prayer, and practical support. Then, for six months, PACN didn't see or hear from her.

Until February 2026.

Evaleni walked through the doors carrying her one-month-old son.

The spiritual mentor who had prayed with her that pivotal day was there to welcome her back. With a smile, Evaleni said, "I could not imagine life without my son."

Today, Evaleni continues to visit PACN with both of her children. They are thriving.

She was the *one*.

The woman who was afraid. The mother who needed someone to listen. The one who needed time, truth, compassion, and a place to turn.

And because you helped make sure PACN was there, her story—and her son's story—looks very different today.
